Forecast for Sunday 05 May 2024

Weather: Early mist and fog patches will soon lift to give a fine and dry start to Sunday, with plenty of sunshine and light winds. However, there will be some fair weather cloud bubbling up during the morning, which may lead to a few showers in the afternoon, but generally it should remain predominantly dry throughout. Largely dry and cloudy in the evening.

Chance of cloud-free hill tops above 800m: 90% quickly becoming 95% or more.

Low Cloud and visibility: Generally very good but a small chance of mist and fog in prone valleys around dawn.

Meteorologist's View

A perfect day for a walk in the hills.

Forecast for Monday 06 May 2024

Weather: Generally cloudier on Monday although any prolonged breaks is likely to become filled in with mist and fog patches by dawn. The cloud will break up during the morning, with a mixture of sunny spells and showers into the afternoon, these are likely to locally heavy and possibly thundery at times. The showers will also be slow-moving, potentially turning small waterways into fast streams.

Maximum wind: Northerly 05 mph.

Chance of cloud-free hill tops above 800m: 90% throughout.

Low Cloud and visibility: Generally very good but good or even moderate in and around any showers.

Temperature: **Valleys:** Plus 10 Celsius becoming plus 19.
At 800m: Plus 05 Celsius becoming plus 11.
Freezing level: Above summits.
